

Senator Lew Frederick and Representative Brad Witt, Co-Chairs
Joint Ways and Means Subcommittee on Natural Resources

February 2, 2017

Dear Co-Chairs,

The Oregon Fuels Association (OFA) is the statewide association of fuel distributors, retailers, commercial fueling and heating oil marketers. With over 125 marketer, fuel dealers and associate members, OFA is the state's leading resource for industry-related education and support. OFA members account for more than 65% of all fuel products sold in Oregon.

OFA strongly supports the work of the Oregon Department of Agriculture, Weights and Measures Program. We work closely with Jason Barber, Program Area Director of Internal Services and Consumer Protection. We have been extremely impressed by the Program's excellent customer service and responsiveness. Our members strongly support the work of the Department and look forward to our future dealings.

Thank you,

Paul Romain

Danelle Romain

Co-Executive Directors of the Oregon Fuels Association
