

Honorable House Rules Chair Jennifer Williamson and House Rules Committee Members,

I agree with HJR 10 bill and the process it sets up for and impeachment process. While none of us like the thought of going through such a process, we need to assure a balance of power between the branches of government are in place. This is modeled after our federal process for impeachment and thus is a tried method of operation. It requires a great deal of agreement within the bodies who must use the mechanism, thus preventing abuse.

Thank you for consideration of my remarks.

Best Regards,

Janice Dysinger
