## SUCTION DREDGE ENVIRONMENTAL IMPACT SUMMARIES

Results from the **1992 Chugach National Forest, Alaska** Report of Water Quality Cumulative Effects of Placer Mining. "This form of mining had a **less than significant** effect on the environment".

Results from the **1994 Department of Fish & Game, California Final Environmental Impact Report**. "This form of mining had a **less than significant** effect on the environment".

Result from the **1999 U.S. Environmental Protection** Agencies funded Impact of Suction Dredging on Water Quality, Benthic Habitat, and Biota in Forty Mile River, Resurrection Creek, and the Chatanika River, Alaska Study. "This form of mining had a **less than significant** effect on the environment".

Bayley, **2003**, **(for Siskiyou National Forest, Oregon)** Response of fish to cumulative effects of suction dredge and hydraulic mining in the Illinois subbasin. "Cumulative suction dredge mining was found to be **non-significant**"

Results from the **2001 Siskiyou National Forest, Oregon Draft Environmental Impact Report**, Suction Dredging Activities. "This form of mining had a **less than significant** effect on the environment".

Results from the **2004 Clearwater National Forest, Idaho Environmental Impact Supplemental Statement**. "This form of mining had a **less than significant** effect on the environment".

Results from the **2011 U.S. Environmental Protection Agencies Biological Evaluation**Small Suction Dredge Placer Mining in Idaho. "This form of mining had a **less than significant** effect on the environment".

Results from the **2012 Wallowa-Whitman National Forest, Oregon FINAL Supplemental Environmental Impact Statement**. "This form of mining had a **less than significant** effect on the environment".

Results from the **2012 Department of Fish & Game, California Subsequent Environmental Impact Report**. "This form of mining had a **less than significant** effect on the environment".
