Subject: Written testimony in support of HB2109 (Prohibits selling, dispensing or using aviation fuel that contains lead...)
Date: Tuesday, February 21, 2017 11:35:27 PM

Chair McKeown and members of the committee,

I am Anna Pavlova.

I live in Hillsboro, Oregon.

I am providing written testimony in support of HB2109, as a private citizen.

I support SB115, as it is necessary to ensure the health of Oregonians who live near airports. Over 1000 pounds of lead per year is pumped into aircraft at Hillsboro International Airport; this lead inevitably precipitates to the ground, poisoning the environment and people. The medical evidence is uncontroversial: no amount of lead is safe for humans, especially young children, yet the aircraft pollute our environment, in fact, the very air we breathe, with lead every day. I live three miles away from Hillsboro International Airport, along a runway approach path. Every day, aircraft fly over my home, poisoning my family with lead. The State of Oregon should prioritize the health of its residents over the influence of aircraft owners. Please support HB2109.

Regards,

Anna Pavlova
