---

Chair McKeown, members of the committee

I am Jamil Chaudhry-Ahmad.

I live in Hillsboro, Oregon.

I am providing written testimony in support of HB2109, as a private citizen.

I support HB2109, as it is necessary to ensure the health of Oregonians who live near airports. Over 1000 pounds of lead per year is pumped into aircraft at Hillsboro International Airport. This lead inevitably precipitates to the ground, poisoning the environment as well as people. I live three miles away from Hillsboro International Airport, along a runway approach path. Every day, aircraft fly over my home, poisoning me and my family with lead. The State of Oregon should prioritize the health of its residents over the influence of aircraft owners. Please support HB2109.

Regards,  
Jamil Chaudhry-Ahmad
