

# FARM INDUSTRY FOR HB 3464

"The recent escalation in federal enforcement activities has caused a great deal of confusion and stress for both our employees and employers. We believe that HB 3464 provides needed guidance and clarity and is model policy for the public bodies with which our employees and employers interact."

-Jeff Stone, Oregon Association of Nurseries, 6/8/2017

"A robust labor market is critical to the success of not only Oregon's wine industry, but the agricultural sector as a whole. One of our members' top concerns is the lack of available labor. [...] HB 3464 is a step in the right direction by creating a consistent and streamlined process for public entities to comply with federal immigration laws, helping address the chilling effect."

-Jana McKamey, Oregon Winegrowers Association, 6/8/2017

"Our employers know from experience that it is not always clear what information is appropriate to share during a visit from ICE. We believe that HB 3464 offers consistent, model policy for the public bodies that our employees interact with on a daily basis, so that they can protect our employees' civil rights."

-Mike Doke, Columbia Gorge Fruit Growers, 6/8/2017

"The increase of immigration ICE activity in Oregon has created an environment of fear in our communities. Families all over the state have been torn apart and whole communities live in fear and anxiety."

-Ramon Ramirez, Pinos y Campesinos Unidos del Noroeste, 6/8/2017

YES ON HB 3464

FROM THE DESK OF  
REPRESENTATIVE ALONSO LEON
