BACKGROUND:

The Oregon Legislature in 2015 dedicated \$20 million in lottery bonds to the Housing for Mental Health Fund at Oregon Housing and Community Services (OHCS). These funds were allocated for the purpose to provide financial assistance to aid in the development, acquisition, renovation or improvement of affordable housing for Oregonians who have mental illnesses or addiction disorders. Currently, OHCS is collaborating with the Oregon Health Authority (OHA) to seek applications for and fund eligible affordable multifamily residential rental housing developments supporting Oregonians with serious mental illness or substance use disorders.

House Bill 3063 A establishes the Mental Health Housing Fund to develop community-based housing for individuals with mental illness and provide other housing-related services. The measure specifies maximum allocation of fund towards certain construction and start-up costs. Money is appropriated to OHA for implementation and to fund the Mental Health Housing Fund.

House Bill 3063 A also requires OHA to convene advisory group to make recommendations for the Mental Health Housing Fund regarding allocation of money, housing proposals and processing applications.
