WHAT THE MEASURE DOES:

Directs the Oregon Health Authority and the Department of Consumer and Business Services to make educational materials available on agency websites relating to breast cancer, insurance coverage and breast reconstruction options in Oregon. Specifies items to be available on the websites and are to be updated annually.

ISSUES DISCUSSED:

- Reconstruction and cosmetic surgical options for individuals diagnosed with breast cancer
- Need for consumer education and awareness about reconstruction surgery options in Oregon

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

The federal Women's Health and Cancer Rights Act of 1998 requires health plans that offer breast cancer coverage to also provide for breast reconstruction and prostheses. Additionally, the federal Breast Cancer Patient Education Act of 2015 requires the Secretary of Health and Human Services to plan and implement an education campaign to inform breast cancer patients of the availability and coverage of breast reconstruction and other options. Published studies report that 70 percent of women eligible for breast reconstruction following their breast cancer surgery often lack information regarding their care options.

House Bill 2660-A directs the Oregon Health Authority and the Department of Consumer and Business Services to develop a website that provides information about breast cancer, breast reconstruction and insurance benefits in Oregon.
