Relating to counting fish.

Be It Enacted by the People of the State of Oregon:

SECTION 1. (1) As used in this section, "dual-frequency identification sonar device" means a multibeam, high-definition imaging sonar device used to detect, count and capture images of fish that pass through the sonar beams.

(2) The State Department of Fish and Wildlife shall use dual-frequency identification sonar devices for counting fish.

SECTION 2. There is allocated for the biennium beginning July 1, 2017, from the Natural Resources Subaccount of the Parks and Natural Resources Fund, to the State Department of Fish and Wildlife, the amount of \$_____ to fund the purchase of the dual-frequency identification sonar devices necessary to comply with section 1 of this 2017 Act.

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted. New sections are in **boldfaced** type.
