 10 medical services provider. At the time the authority requests an interview, the authority shall pro-  
 11 vide the emergency medical services provider with a general statement of the issue or issues of  
 12 concern to the authority. The request must include a statement of the procedural safeguards avail-

 14 the right to have counsel present and the following statement: "Any action proposed by the Oregon

 36 (8) of this section. If any person fails to comply with a subpoena issued under this subsection, or  
 37 refuses to testify on matters on which the person may lawfully be interrogated, a court may compel

32 pensing and administering prescription drugs to their patients in the practice of their respective  
33 professions where specifically authorized to do so by law of this state.

34 (2) A person may not take, use or exhibit the title of pharmacist or the title of druggist or

23 (2) If any of the conditions listed in subsection (1) of this section are found, the hearing aid  
 24 specialist shall refer the person to a physician licensed under ORS [*chapter 677*] **677.100 to 677.228**  
 25 who specializes in diseases of the ear or, if no such licensed physician is available in the community,  
 26 to any physician licensed under ORS [*chapter 677*] **677.100 to 677.228**.

27 (3) Within the 90 days prior to fitting or dispensing a hearing aid to a person under 18 years  
 28 of age, the person receiving the hearing aid must be referred to one of the following licensed med-

 34 for a recommendation of corrective measures that may be required if the person is also examined  
 35 by a properly licensed medical physician who gives approval for possible hearing aid use.

36 (4) Notwithstanding subsection (3) of this section, replacement of a hearing aid with an identical  
 37 hearing aid within one year of the initial fitting or dispensing of the hearing aid does not require  
 38 a referral to a physician.

39 (5)(a) Hearing aid specialists shall make clear their credentials, never representing that the  
 40 services or advice of a person licensed to practice medicine [*and surgery, osteopathy and surgery,*]

 5 the specialist may be reached during normal business hours.

6 (d) A person may not sell a hearing aid by direct mail. For purposes of this paragraph, delivery

8 (6) If the person or the parent or guardian of the person refuses to seek a medical opinion from  
 9 the physician to whom the person has been referred under subsection (2) or (3) of this section, the  
 10 person dealing in hearing aids must obtain from the person or the parents or guardian of the person  
 11 prior to fitting or dispensing a hearing aid a certificate to that effect in a form prescribed by the  
 12 office. Any person dealing in hearing aids or employees and putative agents thereof, upon making  
 13 the required referral for a medical opinion under subsection (2) of this section, may not in any  
 14 manner whatsoever disparage or discourage a prospective hearing aid user from seeking a medical  
 15 opinion prior to the fitting and dispensing of a hearing aid. Nothing required to be performed by a  
 16 person dealing in hearing aids under this section means that the person is engaged in the diagnosis  
 17 of illness or the practice of medicine or any other activity prohibited by the provisions of ORS  
 18 694.042 and this section.

19 **SECTION 35.** ORS 743A.168, as amended by section 7, chapter 11, Oregon Laws 2016, is

8 greater than those under the policy for expenses of hospitalization in the treatment of other medical  
9 conditions. Deductibles and coinsurance for outpatient treatment may not be greater than those  
10 under the policy for expenses of outpatient treatment of other medical conditions.

11 (3) The coverage may not be made subject to treatment limitations, limits on total payments for  
12 treatment, limits on duration of treatment or financial requirements unless similar limitations or  
13 requirements are imposed on coverage of other medical conditions. The coverage of eligible expenses  
14 may be limited to treatment that is medically necessary as determined under the policy for other

24 tient services under the terms of the insured's policy while the insured is living temporarily in a  
25 sheltered living situation.

26 (5) A provider is eligible for reimbursement under this section if:

27 (a) The provider is approved or certified by the Oregon Health Authority;

28 (b) The provider is accredited for the particular level of care for which reimbursement is being  
29 requested by the Joint Commission on Accreditation of Hospitals or the Commission on Accredi-  
30 tation of Rehabilitation Facilities;

31 (c) The patient is staying overnight at the facility and is involved in a structured program at  
32 least eight hours per day, five days per week; or

33 (d) The provider is providing a covered benefit under the policy.

34 (6) Payments may not be made under this section for support groups.

35 (7) If specified in the policy, outpatient coverage may include follow-up in-home service or out-  
36 patient services. The policy may limit coverage for in-home service to persons who are homebound  
37 under the care of a physician.

38 (8) Nothing in this section prohibits a group health insurer from managing the provision of  
39 benefits through common methods, including but not limited to selectively contracted panels, health  
40 plan benefit differential designs, preadmission screening, prior authorization of services, utilization  
41 review or other mechanisms designed to limit eligible expenses to those described in subsection (3)  
42 of this section.

43 (9) The Legislative Assembly has found that health care cost containment is necessary and in-  
44 tends to encourage insurance policies designed to achieve cost containment by ensuring that re-  
45 imbursement is limited to appropriate utilization under criteria incorporated into such policies,

1 either directly or by reference.

2 (10)(a) Subject to the patient or client confidentiality provisions of ORS 40.235 relating to phy-  
3 sicians, ORS 40.240 relating to nurse practitioners, ORS 40.230 relating to psychologists, ORS 40.250  
4 and 675.580 relating to licensed clinical social workers and ORS 40.262 relating to licensed profes-  
5 sional counselors and licensed marriage and family therapists, a group health insurer may provide  
6 for review for level of treatment of admissions and continued stays for treatment in health facilities,  
7 residential facilities, day or partial hospitalization programs and outpatient services by either group  
8 health insurer staff or personnel under contract to the group health insurer, or by a utilization re-  
9 view contractor, who shall have the authority to certify for or deny level of payment.

10 (b) Review shall be made according to criteria made available to providers in advance upon re-  
11 quest.

12 (c) Review shall be performed by or under the direction of a [*medical or osteopathic*] physician  
13 licensed [*by the Oregon Medical Board*] **under ORS 677.100 to 677.228**, a psychologist licensed by  
14 the State Board of Psychologist Examiners, a clinical social worker licensed by the State Board of  
15 Licensed Social Workers or a professional counselor or marriage and family therapist licensed by  
16 the Oregon Board of Licensed Professional Counselors and Therapists, in accordance with standards  
17 of the National Committee for Quality Assurance or Medicare review standards of the Centers for  
18 Medicare and Medicaid Services.

19 (d) Review may involve prior approval, concurrent review of the continuation of treatment,  
20 post-treatment review or any combination of these. However, if prior approval is required, provision  
21 shall be made to allow for payment of urgent or emergency admissions, subject to subsequent re-  
22 view. If prior approval is not required, group health insurers shall permit providers, policyholders  
23 or persons acting on their behalf to make advance inquiries regarding the appropriateness of a  
24 particular admission to a treatment program. Group health insurers shall provide a timely response  
25 to such inquiries. Noncontracting providers must cooperate with these procedures to the same ex-  
26 tent as contracting providers to be eligible for reimbursement.

27 (11) Health maintenance organizations may limit the receipt of covered services by enrollees to  
28 services provided by or upon referral by providers contracting with the health maintenance organ-  
29 ization. Health maintenance organizations and health care service contractors may create substan-  
30 tive plan benefit and reimbursement differentials at the same level as, and subject to limitations no  
31 more restrictive than, those imposed on coverage or reimbursement of expenses arising out of other  
32 medical conditions and apply them to contracting and noncontracting providers.

33 (12) Nothing in this section prevents a group health insurer from contracting with providers of  
34 health care services to furnish services to policyholders or certificate holders according to ORS  
35 743B.460 or 750.005, subject to the following conditions:

36 (a) A group health insurer is not required to contract with all providers that are eligible for  
37 reimbursement under this section.

38 (b) An insurer or health care service contractor shall, subject to subsections (2) and (3) of this  
39 section, pay benefits toward the covered charges of noncontracting providers of services for the  
40 treatment of chemical dependency or mental or nervous conditions. The insured shall, subject to  
41 subsections (2) and (3) of this section, have the right to use the services of a noncontracting provider  
42 of services for the treatment of chemical dependency or mental or nervous conditions, whether or  
43 not the services for chemical dependency or mental or nervous conditions are provided by con-  
44 tracting or noncontracting providers.

45 (13) The Oregon Health Authority shall establish a process for the certification of an organiza-

1 tion described in subsection (1)(e)(B) of this section that:

2 (a) Is not otherwise subject to licensing or certification by the authority; and

3 (b) Does not contract with the authority, a subcontractor of the authority or a community  
4 mental health program.

5 (14) The Oregon Health Authority shall adopt by rule standards for the certification provided  
6 under subsection (13) of this section to ensure that a certified provider organization offers a distinct  
7 and specialized program for the treatment of mental or nervous conditions.

8 (15) The Oregon Health Authority may adopt by rule an application fee or a certification fee,  
9 or both, to be imposed on any provider organization that applies for certification under subsection  
10 (13) of this section. Any fees collected shall be paid into the Oregon Health Authority Fund estab-  
11 lished in ORS 413.101 and shall be used only for carrying out the provisions of subsection (13) of this  
12 section.

13 (16) The intent of the Legislative Assembly in adopting this section is to reserve benefits for  
14 different types of care to encourage cost effective care and to ensure continuing access to levels  
15 of care most appropriate for the insured's condition and progress. This section does not prohibit an  
16 insurer from requiring a provider organization certified by the Oregon Health Authority under sub-  
17 section (13) of this section to meet the insurer's credentialing requirements as a condition of enter-  
18 ing into a contract.

19 (17) The Director of the Department of Consumer and Business Services and the Oregon Health  
20 Authority, after notice and hearing, may adopt reasonable rules not inconsistent with this section  
21 that are considered necessary for the proper administration of this section.

22 **SECTION 36.** ORS 743B.405 is amended to read:

23 743B.405. (1) A medical services contract may not require the provider, as an element of the  
24 contract or as a condition of compensation for services, to agree:

25 (a) In the event of alleged improper medical treatment of a patient, to indemnify the other party  
26 to the medical services contract for any damages, awards or liabilities including but not limited to  
27 judgments, settlements, attorney fees, court costs and any associated charges incurred for any rea-  
28 son other than the negligence or intentional act of the provider or the provider's employees;

29 (b) To charge the other party to the medical services contract a rate for services rendered  
30 pursuant to the medical services contract that is no greater than the lowest rate that the provider  
31 charges for the same service to any other person;

32 (c) To deny care to a patient because of a determination made pursuant to the medical services  
33 contract that the care is not covered or is experimental, or to deny referral of a patient to another  
34 provider for the provision of such care, if the patient is informed that the patient will be responsible  
35 for the payment of such noncovered, experimental or referral care and the patient nonetheless de-  
36 sires to obtain such care or referral; or

37 (d) Upon the provider's withdrawal from or termination or nonrenewal of the medical services  
38 contract, not to treat or solicit a patient even at that patient's request and expense.

39 (2) A medical services contract shall:

40 (a) Grant to the provider adequate notice and hearing procedures, or such other procedures as  
41 are fair to the provider under the circumstances, prior to termination or nonrenewal of the medical  
42 services contract when such termination or nonrenewal is based upon issues relating to the quality  
43 of patient care rendered by the provider.

44 (b) Set forth generally the criteria used by the other party to the medical services contract for  
45 the termination or nonrenewal of the medical services contract.

1 (c) Entitle the provider to an annual accounting accurately summarizing the financial trans-  
2 actions between the parties to the medical services contract for that year.

5 (e) Provide that a [*doctor of medicine or doctor of osteopathy*] **physician** licensed under ORS  
6 [*chapter 677*] **677.100 to 677.228** shall be retained by the other party to the medical services contract  
7 and shall be responsible for all final medical and mental health decisions relating to coverage or  
8 payment made pursuant to the medical services contract.

9 (f) Provide that a physician, as defined in ORS 677.010, who is practicing in conformity with ORS  
10 677.095 may advocate a decision, policy or practice without being subject to termination or penalty  
11 for the sole reason of such advocacy.

12 (g)(A) Entitle the party to the medical services contract who is being reimbursed for the pro-  
13 vision of health care services on a basis that includes financial risk withholds, or the party's rep-  
14 resentative, to a full accounting of health benefits claims data and related financial information on  
15 no less than a quarterly basis by the party to a medical service contract who has made reimburse-  
16 ment, as follows:

17 (i) The data shall include all pertinent information relating to the health care services provided,  
18 including related provider and patient information, reimbursements made and amounts withheld un-  
19 der the financial risk withhold provisions of the medical services contract for the period of time  
20 under reconciliation and settlement between the parties.

21 (ii) Any reconciliation and settlement undertaken pursuant to a medical services contract shall  
22 be based directly and exclusively upon data provided to the party who is being reimbursed for the  
23 provision of health care services.

24 (iii) All data, including supplemental information or documentation, necessary to finalize the  
25 reconciliation and settlement provisions of a medical services contract relating to financial risk  
26 withholds shall be provided to the party who is being reimbursed for the provision of health care  
27 services no later than 30 days prior to finalizing the reconciliation and settlement.

28 (B) Nothing in this paragraph shall be construed to prevent parties to a medical services con-  
29 tract from mutually agreeing to alternative reconciliation and settlement policies and procedures.

30 (h) Provide that when continuity of care is required to be provided under a health benefit plan  
31 by ORS 743B.225, the insurer and the individual provider shall provide continuity of care to  
32 enrollees as provided in ORS 743B.225.

33 (3) The other party to a medical services contract shall not:

34 (a) Refer to other documents or instruments in a contract unless the nonprovider party agrees  
35 to make available to the provider for review a copy of the documents or instruments within 72 hours  
36 of request; or

37 (b) Provide as an element of a contract with a third party relating to the provision of medical  
38 services to a patient of the provider that the provider's patient may not sue or otherwise recover  
39 from the nonprovider party, or must hold the nonprovider party harmless for, any and all expenses,  
40 damages, awards or liabilities that arise from the management decisions, utilization review pro-  
41 visions or other policies or determinations of the nonprovider party that have an impact on the  
42 provider's treatment decisions and actions with regard to the patient.

43 (4) An insurer, independent practice association, medical or mental health clinic or other party  
44 to a medical services contract shall provide the criteria for selection of parties to future medical

(a) By personally demonstrating to the satisfaction of the department that, notwithstanding the mental or physical condition or impairment, the person is qualified to safely operate a motor vehicle;  
or

(b) If the department reasonably believes that, notwithstanding the demonstration under paragraph (a) of this subsection, the person's mental or physical condition or impairment affects the person's ability to safely operate a motor vehicle, by receiving a determination of eligibility from the medical determination officer of the department under this section.

(2) The medical determination officer shall determine that a person is eligible for a license under

1 this section if an applicant establishes to the satisfaction of the officer that the person’s mental or

 4 under this subsection:

5 (a) A report from the person’s physician, nurse practitioner or physician assistant of the person’s

13 (3) If a person establishes eligibility for a license under this section by receiving a determination  
 14 of eligibility, the department may require the person to reestablish eligibility at reasonable intervals.  
 15 The frequency of reestablishing eligibility under this subsection shall be established by the medical  
 16 determination officer after reviewing any recommendations from the physician, nurse practitioner  
 17 or physician assistant of the person required to reestablish eligibility.

18 (4) The department may employ any qualified physician, nurse practitioner or physician assistant
