26 “(4) All investigations of child abuse and interviews of child abuse vic-

29 in a timely fashion and, in the judgment of a law enforcement officer or child
30 protective services worker, there is reasonable cause to believe a delay in

1 investigation or interview of the child abuse victim could place the child in
2 jeopardy of physical harm, the investigation may proceed without full par-
3 ticipation of all personnel. This authority applies only for as long as rea-
4 sonable danger to the child exists. A law enforcement officer or child
5 protective services worker shall make a reasonable effort to find and provide
6 a trained investigator or interviewer.

7 “(5) To ensure the protection and safe placement of a child, the Depart-

24 “(B) If requested by the Advisory Council on Child Abuse Assessment, ask

26 on the evaluation results; or

27 “(C) Ask a team to evaluate the team’s compliance with the protocols and
28 procedures in a particular case.

29 “(c) The information and records compiled under this subsection are ex-
30 empt from ORS 192.410 to 192.505.

1 “(8) Each team shall develop policies that provide for an independent re-
2 view of investigation procedures of sensitive cases after completion of court
3 actions on particular cases. The policies shall include independent citizen
4 input. Parents of child abuse victims shall be notified of the review proce-
5 dure.

6 “(9) Each team shall designate at least one physician, physician
7 assistant, **naturopathic physician** or nurse practitioner who has been
8 trained to conduct child abuse medical assessments, as defined in ORS
9 418.782, and who is, or who may designate another physician, physician as-

15 the taking of the photographs.

16 “(11) No later than September 1, 2008, each team shall submit to the De-
17 partment of Justice a written summary identifying the designated medical
18 professional described in subsection (9) of this section. After that date, this
19 information shall be included in each regular report to the Department of
20 Justice.

21 “(12) If, after reasonable effort, the team is not able to identify a desig-
22 nated medical professional described in subsection (9) of this section, the
23 team shall develop a written plan outlining the necessary steps, recruitment
24 and training needed to make such a medical professional available to the
25 children of the county. The team shall also develop a written strategy to
26 ensure that each child in the county who is a suspected victim of child abuse
27 will receive a medical assessment in compliance with ORS 419B.023. This
28 strategy, and the estimated fiscal impact of any necessary recruitment and
29 training, shall be submitted to the Department of Justice no later than Sep-
30 tember 1, 2008. This information shall be included in each regular report to

1 the Department of Justice for each reporting period in which a team is not
2 able to identify a designated medical professional described in subsection (9)

7 immediately:

8 “(a) Cause an investigation to be made to determine the nature and cause
9 of the abuse of the child; and

10 “(b) Notify the Office of Child Care if the alleged child abuse occurred
11 in a child care facility as defined in ORS 329A.250.

12 “(2) If the abuse reported in subsection (1) of this section is alleged to
13 have occurred at a child care facility:

14 “(a) The department and the law enforcement agency shall jointly deter-
15 mine the roles and responsibilities of the department and the agency in their
16 respective investigations; and

17 “(b) The department and the agency shall each report the outcomes of
18 their investigations to the Office of Child Care.

19 “(3) If the law enforcement agency conducting the investigation finds
20 reasonable cause to believe that abuse has occurred, the law enforcement
21 agency shall notify by oral report followed by written report the local office
22 of the department. The department shall provide protective social services
23 of its own or of other available social agencies if necessary to prevent fur-
24 ther abuses to the child or to safeguard the child’s welfare.

25 “(4) If a child is taken into protective custody by the department, the
26 department shall promptly make reasonable efforts to ascertain the name and
27 address of the child’s parents or guardian.

28 “(5)(a) If a child is taken into protective custody by the department or a
29 law enforcement official, the department or law enforcement official shall,
30 if possible, make reasonable efforts to advise the parents or guardian imme-

4 office of the department and any after-hours telephone numbers.

5 “(b) Notice may be given by any means reasonably certain of notifying
6 the parents or guardian, including but not limited to written, telephonic or
7 in-person oral notification. If the initial notification is not in writing, the

10 “(c) The department also shall make a reasonable effort to notify the
11 noncustodial parent of the information required by paragraph (a) of this
12 subsection in a timely manner.

13 “(d) If a child is taken into custody while under the care and supervision
14 of a person or organization other than the parent, the department, if possible,
15 shall immediately notify the person or organization that the child has been
16 taken into protective custody.

17 “(6) If a law enforcement officer or the department, when taking a child
18 into protective custody, has reasonable cause to believe that the child has
19 been affected by sexual abuse and rape of a child as defined in ORS 419B.005
20 (1)(a)(C) and that physical evidence of the abuse exists and is likely to dis-
21 appear, the court may authorize a physical examination for the purposes of
22 preserving evidence if the court finds that it is in the best interest of the
23 child to have such an examination. Nothing in this section affects the au-
24 thority of the department to consent to physical examinations of the child
25 at other times.

26 “(7) A minor child of 12 years of age or older may refuse to consent to
27 the examination described in subsection (6) of this section. The examination
28 shall be conducted by or under the supervision of a physician licensed under

3 “(8) When the department completes an investigation under this section,
4 if the person who made the report of child abuse provided contact informa-
5 tion to the department, the department shall notify the person about whether
6 contact with the child was made, whether the department determined that
7 child abuse occurred and whether services will be provided. The department
8 is not required to disclose information under this subsection if the depart-

10 **“SECTION 42.** ORS 419B.023 is amended to read:

25 “(J) Injuries causing serious or protracted disfigurement or loss or
26 impairment of the function of any bodily organ; or

27 “(K) Any other injury that threatens the physical well-being of the child.

28 “(2) If a person conducting an investigation under ORS 419B.020 observes
29 a child who has suffered suspicious physical injury and the person is certain
30 or has a reasonable suspicion that the injury is or may be the result of

1 abuse, the person shall, in accordance with the protocols and procedures of
2 the county multidisciplinary child abuse team described in ORS 418.747:

3 “(a) Immediately photograph or cause to have photographed the suspi-
4 cious physical injuries in accordance with ORS 419B.028; and

5 “(b) Ensure that a designated medical professional conducts a medical
6 assessment within 48 hours, or sooner if dictated by the child’s medical
7 needs.

8 “(3) The requirement of subsection (2) of this section shall apply:

9 “(a) Each time suspicious physical injury is observed by Department of
10 Human Services or law enforcement personnel:

11 “(A) During the investigation of a new allegation of abuse; or

12 “(B) If the injury was not previously observed by a person conducting an
13 investigation under ORS 419B.020; and

14 “(b) Regardless of whether the child has previously been photographed
15 or assessed during an investigation of an allegation of abuse.

16 “(4)(a) Department or law enforcement personnel shall make a reasonable
17 effort to locate a designated medical professional. If after reasonable efforts

28 “(c) The person conducting the medical assessment may consult with and
29 obtain records from the child’s health care provider under ORS 419B.050.

30 “(5) Nothing in this section prevents a person conducting a child abuse

1 investigation from seeking immediate medical treatment from a hospital
2 emergency room or other medical provider for a child who is physically in-
3 jured or otherwise in need of immediate medical care.

4 “(6) If the child described in subsection (2) of this section is less than five
5 years of age, the designated medical professional may, within 14 days, refer
6 the child for a screening for early intervention services or early childhood
7 special education, as those terms are defined in ORS 343.035. The referral
8 may not indicate the child is subject to a child abuse investigation unless
9 written consent is obtained from the child’s parent authorizing such disclo-
10 sure. If the child is already receiving those services, or is enrolled in the
11 Head Start program, a person involved in the delivery of those services to
12 the child shall be invited to participate in the county multidisciplinary child
13 abuse team’s review of the case and shall be provided with paid time to do
14 so by the person’s employer.

22 bodily injury sustained in an accident by a person who is an insured under
23 this coverage shall be reduced by the credit given to the insurer pursuant
24 to subsection (4)(d)(C) or (D) of this section.

25 “(d) The amount payable under the terms of this coverage may not be
26 reduced by the amount of liability proceeds offered, described in subsection
27 (4)(d)(B) or (D) of this section, that has not been paid to the injured person.
28 If liability proceeds have been offered and not paid, the amount payable un-
29 der the terms of the coverage shall include the amount of liability limits
30 offered but not accepted due to the insurer’s refusal to consent. The insured

1 shall cooperate so as to permit the insurer to proceed by subrogation or as-
2 signment to prosecute the claim against the uninsured motorist.

3 “(8) No action shall lie against the insurer unless, as a condition
4 precedent thereto, the insured or the legal representative of the insured has
5 fully complied with all the terms of this policy.

6 “(9)(a) With respect to bodily injury to an insured:

7 “(A) While occupying a vehicle owned by a named insured under this
8 coverage, the insurance under this coverage is primary.

9 “(B) While occupying a vehicle not owned by a named insured under this
10 coverage, the insurance under this coverage shall apply only as excess in-
11 surance over any primary insurance available to the occupant that is similar
12 to this coverage, and this excess insurance coverage shall then apply only
13 to the sums that the insured or the heirs or legal representative of the in-
14 sured is legally entitled to recover as damages for bodily injury or death that
15 is caused by accident and that arises out of owning, maintaining or using
16 an uninsured vehicle.

17 “(b) With respect to bodily injury to an insured while occupying any
18 motor vehicle used as a public or livery conveyance, the insurance under this
19 coverage shall apply only as excess insurance over any other insurance
20 available to the insured that is similar to this coverage, and this excess in-
21 surance coverage shall then apply only to the amount by which the applica-
22 ble limit of liability of this coverage exceeds the sum of the applicable limits
23 of liability of all other insurance.

24 “(10) If any person making claim hereunder and the insurer do not agree
25 that the person is legally entitled to recover damages from the owner or
26 operator of an uninsured vehicle because of bodily injury to the insured, or
27 do not agree as to the amount of payment that may be owing under this
28 coverage, then, in the event the insured and the insurer elect by mutual
29 agreement at the time of the dispute to settle the matter by arbitration, the
30 arbitration shall take place as described in ORS 742.505. Any judgment upon

1 the award rendered by the arbitrators may be entered in any court having
2 jurisdiction thereof, provided, however, that the costs to the insured of the
3 arbitration proceeding do not exceed \$100 and that all other costs of arbi-
4 tration are borne by the insurer. 'Costs' as used in this provision does not
5 include attorney fees or expenses incurred in the production of evidence or
6 witnesses or the making of transcripts of the arbitration proceedings. The
7 person and the insurer each agree to consider themselves bound and to be
8 bound by any award made by the arbitrators pursuant to this coverage in the
9 event of such election. At the election of the insured, the arbitration shall
10 be held:

11 “(a) In the county and state of residence of the insured;

12 “(b) In the county and state where the insured’s cause of action against
13 the uninsured motorist arose; or

14 “(c) At any other place mutually agreed upon by the insured and the
15 insurer.

16 “(11) In the event of payment to any person under this coverage:

17 “(a) The insurer shall be entitled to the extent of the payment to the
18 proceeds of any settlement or judgment that may result from the exercise of
19 any rights of recovery of the person against any uninsured motorist legally
20 responsible for the bodily injury because of which payment is made;

21 “(b) The person shall hold in trust for the benefit of the insurer all rights
22 of recovery that the person shall have against such other uninsured person
23 or organization because of the damages that are the subject of claim made
24 under this coverage, but only to the extent that the claim is made or paid
25 herein;

26 “(c) If the insured is injured by the joint or concurrent act or acts of two
27 or more persons, one or more of whom is uninsured, the insured shall have
28 the election to receive from the insurer any payment to which the insured
29 would be entitled under this coverage by reason of the act or acts of the
30 uninsured motorist, or the insured may, with the written consent of the

1 insurer, proceed with legal action against any or all persons claimed to be
2 liable to the insured for the injuries. If the insured elects to receive payment
3 from the insurer under this coverage, then the insured shall hold in trust for
4 the benefit of the insurer all rights of recovery the insured shall have
5 against any other person, firm or organization because of the damages that
6 are the subject of claim made under this coverage, but only to the extent of
7 the actual payment made by the insurer;

8 “(d) The person shall do whatever is proper to secure and shall do nothing
9 after loss to prejudice such rights;

10 “(e) If requested in writing by the insurer, the person shall take, through
11 any representative not in conflict in interest with the person, designated by
12 the insurer, such action as may be necessary or appropriate to recover pay-
13 ment as damages from such other uninsured person or organization, such
14 action to be taken in the name of the person, but only to the extent of the
15 payment made hereunder. In the event of a recovery, the insurer shall be
16 reimbursed out of the recovery for expenses, costs and attorney fees incurred
17 by the insurer in connection therewith; and

18 “(f) The person shall execute and deliver to the insurer any instruments
19 and papers as may be appropriate to secure the rights and obligations of the
20 person and the insurer established by this provision.

21 “(12)(a) The parties to this coverage agree that no cause of action shall
22 accrue to the insured under this coverage unless within two years from the
23 date of the accident:

24 “(A) Agreement as to the amount due under the policy has been con-
25 cluded;

26 “(B) The insured or the insurer has formally instituted arbitration pro-
27 ceedings;

28 “(C) The insured has filed an action against the insurer; or

29 “(D) Suit for bodily injury has been filed against the uninsured motorist
30 and, within two years from the date of settlement or final judgment against

1 the uninsured motorist, the insured has formally instituted arbitration pro-
2 ceedings or filed an action against the insurer.

3 “(b) For purposes of this subsection:

4 “(A) ‘Date of settlement’ means the date on which a written settlement
5 agreement or release is signed by an insured or, in the absence of these
6 documents, the date on which the insured or the attorney for the insured
7 receives payment of any sum required by the settlement agreement. An ad-
8 vance payment as defined in ORS 31.550 shall not be deemed a payment of
9 a settlement for purposes of the time limitation in this subsection.

10 “(B) ‘Final judgment’ means a judgment that has become final by lapse
11 of time for appeal or by entry in an appellate court of an appellate judgment.

12 **“SECTION 96.** ORS 743B.222 is amended to read:

13 “743B.222. (1) As used in this section, ‘women’s health care provider’
14 means an obstetrician or gynecologist, physician assistant specializing in
15 women’s health, advanced registered nurse practitioner specialist in women’s
16 health, **naturopathic physician specializing in women’s health** or certi-
17 fied nurse midwife, practicing within the applicable lawful scope of practice.

18 “(2) Every health insurance policy that covers hospital, medical or surgi-
19 cal expenses and requires an enrollee to designate a participating primary
20 care provider shall permit a female enrollee to designate a women’s health
21 care provider as the enrollee’s primary care provider if:

22 “(a) The women’s health care provider meets the standards established by
23 the insurer in collaboration with interested parties, including but not limited
24 to the Oregon section of the American College of Obstetricians and
25 Gynecologists; and

26 “(b) The women’s health care provider requests that the insurer make the
27 provider available for designation as a primary care provider.

28 “(3) If a female enrollee has designated a primary care provider who is
29 not a women’s health care provider, an insurance policy as described in
30 subsection (2) of this section shall permit the enrollee to have direct access

1 to a women’s health care provider, without a referral or prior authorization,
2 for obstetrical or gynecological care by a participating health care profes-
3 sional who specializes in obstetrics or gynecology.

4 “(4) The standards established by the insurer under subsection (2) of this
5 section shall not prohibit an insurer from establishing the maximum number
6 of participating primary care providers and participating women’s health
7 care providers necessary to serve a defined population or geographic service
8 area.

9 **“SECTION 97.** ORS 743.683 is amended to read:

10 “743.683. (1) [No] **A** Medicare supplement insurance policy, contract or
11 certificate in force in the state [shall] **may not** contain benefits which du-
12 plicate benefits provided by Medicare.

13 “(2) The Director of the Department of Consumer and Business Services
14 shall adopt by rule specific standards for policy provisions of Medicare sup-
15 plement policies and certificates. The standards shall be in addition to and
16 in accordance with applicable laws of this state. [No] **A** requirement of the
17 Insurance Code relating to minimum required policy benefits, other than the
18 minimum standards contained in ORS 743.680 to 743.689, [shall] **may not**
19 apply to Medicare supplement policies. The standards may cover, but not be
20 limited to:

- 21 “(a) Terms of renewability;
- 22 “(b) Initial and subsequent conditions of eligibility;
- 23 “(c) Nonduplication of coverage;
- 24 “(d) Probationary periods;
- 25 “(e) Benefit limitations, exceptions and reductions;
- 26 “(f) Elimination periods;
- 27 “(g) Requirements for replacement;
- 28 “(h) Recurrent conditions; and
- 29 “(i) Definitions of terms.

30 “(3) Provisions established by the director governing eligibility for Medi-

1 care supplement insurance shall not be limited to persons qualifying for
2 Medicare by reason of age.

3 “(4) The director may adopt by rule standards that specify prohibited
4 policy provisions not otherwise specifically authorized by statute which, in
5 the opinion of the director, are unjust, unfair or unfairly discriminatory to
6 any person insured or proposed for coverage under a Medicare supplement
7 policy.

8 “(5) Notwithstanding any other provision of law of this state, a Medicare
9 supplement policy may not deny a claim for losses incurred more than six
10 months from the effective date of coverage for a preexisting condition. The
11 policy may not define a preexisting condition more restrictively than a con-
12 dition for which medical advice was given or treatment was recommended
13 by or received from a physician **or naturopathic physician** within six
14 months before the effective date of coverage.

15 “(6) The director shall adopt by rule standards for benefits and claims
16 payment under Medicare supplement policies.

17 **“SECTION 98.** ORS 744.364 is amended to read:

18 “744.364. (1)(a) A life settlement provider entering into a life settlement
19 contract shall first obtain:

20 “(A) If the owner is the insured, a written statement from a licensed
21 physician, **a naturopathic physician licensed under ORS chapter 685**, a
22 physician assistant licensed under ORS 677.505 to 677.525 or a nurse practi-
23 tioner licensed under ORS 678.375 to 678.390 that the owner is of sound mind
24 and under no constraint or undue influence to enter into a life settlement
25 contract; and

26 “(B) A document in which the insured consents to the release of the
27 insured’s medical records to a licensed life settlement provider, life settle-
28 ment broker and the insurance company that issued the life insurance policy
29 covering the life of the insured.

30 “(b) Within 20 days after an owner executes documents necessary to

1 transfer any rights under an insurance policy or, if the insured is terminally
2 ill, within 20 days after an owner entering any agreement, option, promise
3 or any other form of understanding, expressed or implied, to transfer the
4 policy for value, the life settlement provider shall give written notice to the
5 insurer that issued the insurance policy that the policy has or will become
6 a settled policy. The notice must be accompanied by the documents required
7 by paragraph (c) of this subsection.

8 “(c) The life settlement provider shall deliver a copy of the medical re-
9 lease required under paragraph (a)(B) of this subsection, a copy of the
10 owner’s application for the life settlement contract, the notice required under
11 paragraph (b) of this subsection and a request for verification of coverage
12 to the insurer that issued the life policy that is the subject of the life
13 transaction. The Director of the Department of Consumer and Business Ser-
14 vices shall develop and approve a form for the request for verification.

15 “(d) The insurer shall respond to a request for verification of coverage
16 submitted on an approved form by a life settlement provider or life settle-
17 ment broker within 30 calendar days of the date the request is received and
18 shall indicate whether, based on the medical evidence and documents pro-
19 vided, the insurer intends to pursue an investigation at this time regarding
20 the validity of the insurance contract or possible fraud. The insurer shall
21 accept a request for verification of coverage made on a form approved by the
22 director. The insurer shall accept an original or facsimile or electronic copy
23 of such request and any accompanying authorization signed by the owner.
24 Failure by the insurer to meet its obligations under this subsection is a vi-
25 olation of the Insurance Code.

26 “(e) Prior to or at the time of execution of the life settlement contract,
27 the life settlement provider shall obtain a witnessed document in which the
28 owner consents to the life settlement contract, represents that the owner has
29 a full and complete understanding of the life settlement contract, that the
30 owner has a full and complete understanding of the benefits of the life in-

1 surance policy, acknowledges that the owner is entering into the life settle-
2 ment contract freely and voluntarily and, for persons with a terminal illness
3 or chronic illness or condition, acknowledges that the insured has a terminal
4 illness or chronic illness and that the terminal illness or chronic illness or
5 condition was diagnosed after the life insurance policy was issued.

6 “(f) If a life settlement broker performs any of the activities required of
7 the life settlement provider, the provider is deemed to have fulfilled the re-
8 quirements of this section that were performed by the broker.

9 “(2) All medical information solicited or obtained by any licensee is
10 privileged and confidential under ORS 705.137.

11 “(3)(a) All life settlement contracts entered into in this state must provide
12 the owner with an absolute right to rescind the contract before the earlier
13 of 60 calendar days after the date upon which the life settlement contract is
14 executed by all parties or 30 calendar days after the life settlement proceeds
15 have been sent to the owner under subsection (5) of this section.

16 “(b) The life settlement provider may condition rescission upon the owner
17 both giving notice and repaying to the life settlement provider within the
18 rescission period all proceeds of the settlement and any premiums, loans and
19 loan interest paid by or on behalf of the life settlement provider in con-
20 nection with or as a consequence of the life settlement.

21 “(c) If the insured dies during the rescission period, the life settlement
22 contract is deemed to have been rescinded, subject to repayment within 60
23 calendar days of the death of the insured to the life settlement provider or
24 purchaser of all life settlement proceeds and any premiums, loans and loan
25 interest that have been paid by the life settlement provider or purchaser.

26 “(d) In the event of any rescission, if the life settlement provider has paid
27 commissions or other compensation to a life settlement broker in connection
28 with the rescinded transaction, the life settlement broker shall refund all
29 such commissions and compensation to the life settlement provider within
30 five business days following receipt of written demand from the life settle-

1 ment provider. The demand must be accompanied by either the owner's notice
2 of rescission if rescinded at the election of the owner, or the notice of the
3 death of the insured if rescinded by reason of the death of the insured within
4 the applicable rescission period.

5 “(4) The life settlement purchaser shall have the right to rescind a life
6 settlement contract within three days after the disclosures mandated by ORS
7 744.354 (7) are received by the purchaser.

8 “(5)(a) The life settlement provider shall instruct the owner to send the
9 executed documents required to effect the change in ownership, assignment
10 or change in beneficiary directly to an independent escrow agent selected
11 by the provider.

12 “(b) Within three business days after the date the escrow agent receives
13 the document, or from the date the life settlement provider receives the
14 documents, if the owner erroneously provides the documents directly to the
15 provider, the provider shall pay or transfer the proceeds of the life settlement
16 into an escrow or trust account maintained in a state or federally chartered
17 financial institution whose deposits are insured by the Federal Deposit In-
18 surance Corporation.

19 “(c) Upon payment of the settlement proceeds into the escrow account,
20 the escrow agent shall deliver the original change in ownership, assignment
21 or change in beneficiary forms to the life settlement provider or related
22 provider trust or other designated representative of the life settlement pro-
23 vider. Upon the escrow agent's receipt of the acknowledgment of the properly
24 completed transfer of ownership, assignment or designation of beneficiary
25 from the insurance company, the escrow agent shall pay the settlement pro-
26 ceeds to the owner.

27 “(6) Failure to pay the owner the full contract amount for the life
28 settlement contract within the time set forth under subsection (5) of this
29 section renders the life settlement contract voidable by the owner until the
30 time full payment is tendered to and accepted by the owner. Funds are

1 deemed sent by a life settlement provider to an owner as of the date that the
2 escrow agent either releases funds for wire transfer to the owner or places
3 a check for delivery to the owner via the United States Postal Service or
4 another nationally recognized delivery service.

5 “(7)(a) Contacts with the insured for the purpose of determining the
6 health status of the insured by the life settlement provider or life settlement
7 broker after the life settlement has occurred may be made only by the life
8 settlement provider or broker licensed in this state or its authorized repre-
9 sentatives and are limited to once every three months for insureds with a life
10 expectancy of more than one year, and to no more than once per month for
11 insureds with a life expectancy of one year or less.

12 “(b) The limitations set forth in this subsection do not apply to any con-
13 tacts with an insured for reasons other than determining the insured’s health
14 status.

15 **“SECTION 99.** ORS 744.367 is amended to read:

16 “744.367. (1) A person may not enter into a life settlement contract at any
17 time prior to the application or issuance of a policy that is the subject of a
18 life settlement contract or within a five-year period commencing with the
19 date of issuance of the insurance policy or certificate. However, this five-
20 year restriction does not apply if the owner certifies to the life settlement
21 provider that any one or more of the following conditions has been met
22 within the five-year period:

23 “(a) The policy was issued upon the owner’s exercise of conversion rights
24 arising out of a group or individual policy if the total of the time covered
25 under the conversion policy plus the time covered under the prior policy is
26 at least 60 months. The time covered under a group policy is calculated
27 without regard to any change in insurance carriers, provided the coverage
28 has been continuous and under the same group sponsorship;

29 “(b) The owner submits independent evidence to the life settlement pro-
30 vider that one or more of the following conditions have been met within the

1 five-year period:

2 “(A) The owner or insured is terminally ill or chronically ill;

3 “(B) The owner’s spouse dies;

4 “(C) The owner divorces the owner’s spouse;

5 “(D) The owner retires from full-time employment;

6 “(E) The owner becomes physically or mentally disabled and a physician,
7 **naturopathic physician licensed under ORS chapter 685**, physician as-
8 sistant licensed under ORS 677.505 to 677.525 or nurse practitioner licensed
9 under ORS 678.375 to 678.390 determines that the disability prevents the
10 owner from maintaining full-time employment; or

11 “(F) A final order, judgment or decree is entered by a court of competent
12 jurisdiction, on the application of a creditor of the owner, adjudicating the
13 owner bankrupt or insolvent, or approving a petition seeking reorganization
14 of the owner or appointing a receiver, trustee or liquidator to all or a sub-
15 stantial part of the owner’s assets; or

16 “(c) The owner enters into a life settlement contract more than two years
17 after the date of issuance of a policy and, with respect to the policy, at all
18 times prior to the date that is two years after policy issuance, the following
19 conditions are met:

20 “(A) Policy premiums have been funded exclusively with unencumbered
21 assets, including an interest in the life insurance policy being financed only
22 to the extent of its net cash surrender value, provided by, or full recourse
23 liability incurred by, the insured or a person closely related to the insured
24 by blood or law or a party having a lawful substantial economic interest in
25 the continued life, health and bodily safety of the person insured, or a trust
26 established primarily for the benefit of such parties;

27 “(B) There is no agreement or understanding with any other person to
28 guarantee any such liability or to purchase or stand ready to purchase the
29 policy, including through an assumption or forgiveness of the loan; and

30 “(C) Neither the insured nor the policy has been evaluated for settlement.

1 “(2) Copies of the independent evidence described in subsection (1)(b) of
2 this section and documents required by ORS 744.364 (1) must be submitted
3 to the insurer when the life settlement provider or other party entering into
4 a life settlement contract with an owner submits a request to the insurer for
5 verification of coverage. The copies must be accompanied by a letter of
6 attestation from the life settlement provider that the copies are true and
7 correct copies of the documents received by the life settlement provider.

8 “(3) If the life settlement provider submits to the insurer a copy of the
9 owner’s or insured’s certification described in and the documents required
10 by ORS 744.364 (1) when the provider submits a request to the insurer to
11 effect the transfer of the policy or certificate to the life settlement provider,
12 the copy conclusively establishes that the life settlement contract satisfies
13 the requirements of this section and the insurer shall respond in a timely
14 manner to the request.

15 “(4) An insurer may not, as a condition of responding to a request for
16 verification of coverage or effecting the transfer of a policy pursuant to a
17 life settlement contract, require that the owner, insured, life settlement
18 provider or life settlement broker sign any forms, disclosures, consent or
19 waiver form that has not been expressly approved by the Director of the
20 Department of Consumer and Business Services for use in connection with
21 life settlement contracts in this state.

22 “(5) Upon receipt of a properly completed request for a change of owner-
23 ship or beneficiary of a policy, the insurer shall respond in writing within
24 30 calendar days with written acknowledgement confirming that the change
25 has been effected or specifying the reasons why the requested change cannot
26 be processed. The insurer may not unreasonably delay effecting change of
27 ownership or beneficiary and may not otherwise seek to interfere with any
28 life settlement contract lawfully entered into in this state.

29 **“SECTION 100.** ORS 744.382 is amended to read:

30 “744.382. (1) A licensee may not pay or offer to pay a finder’s fee, com-

1 mission or other compensation to a person described in this subsection, in
2 connection with a policy insuring the life of an individual with a terminal
3 illness or condition. The prohibition under this subsection applies with re-
4 spect to payments or offers of payment to:

5 “(a) The physician, **naturopathic physician**, attorney or accountant of
6 the policyholder, of the certificate holder or of the insured individual when
7 the individual is other than the policyholder or certificate holder.

8 “(b) Any person other than a physician, **naturopathic physician**, attor-
9 ney or accountant described in paragraph (a) of this subsection, who provides
10 medical, legal or financial planning services to the policyholder, to the cer-

12 the policyholder or certificate holder.

13 “(c) Any person other than one described in paragraph (a) or (b) of this
14 subsection who acts as an agent of the policyholder, certificate holder or

23 “(4) A licensee may not discriminate in the making of a life settlement
24 contract on the basis of race, religion, creed, sex, sexual orientation, na-

26 nate between persons who have dependents and persons who do not have
27 dependents.

28 “**SECTION 101.** ORS 746.230, as amended by section 6, chapter 59, Oregon

14 by offering substantially less than amounts ultimately recovered in actions
15 brought by such claimants;

24 “(k) Delaying investigation or payment of claims by requiring a claimant
