Committee members convened at 8:45 am to tour the Center for Hope and Safety in Salem. The Center for Hope and Safety provides shelter and resources serving victims and survivors of domestic violence, sexual assault, stalking, and human trafficking in Salem. The tour began with an overview of the mission, history, and services the Center for Hope and Safety provides. Members toured different areas within the main facility and learned about the Center for Hope and Safety's crisis line, community engagement, education materials, and the services provided to victims and survivors.
