Hello.

I am writing in opposition to HB 4075. We need to protect the land that was designated as protected as a rural reserve in 2014.

I get the bulk of my prouce from an organic farm in Helvetia, very near to the land in question. I have taken great pains to research local farms where I want to invest my hard earned money to get the best value.

I also believe in supporting local farmers. They are vital in preventing food deserts.

Please do not vote for HB 4075
