

I support the National Popular Vote, and the bill that has already passed the Oregon house four times and which vote has been denied to the Senate since 2009, because

Oregonians already support the bill, the NPV. There is no need for an expensive referral. At a time of a money squeeze in state government, why spend millions on a referral? It would be a waste of taxpayer money.

The federal Constitution gives state legislatures the power to decide how electoral votes shall be awarded.

I support every vote equal for president. Why should a miner in Wyoming have more representation than a voter in inner-city Watts or Harlem?
