Subject: We oppose HB 4075

Follow Up Flag: Follow up
Flag Status: Flagged

My family opposes HB 4075. Protecting 1,700 acres of world-class farmland is vitally important. Passage of HB 4075 will prompt other jurisdictions to get on the bandwagon to lobby for exemption from Oregon's land use laws, eroding laws that have protected Oregon farmland for over 40 years. HB 4075 would set a dangerous precedent.

My family is a member of a Community Supported Agriculture farm in Helvetia, and having access to locally and sustainably grown food is a huge priority for us. Knowing our farmers personally and having healthy, locally grown produce is good for the environment and our community. Farmers have a tough enough job as it is. Please don't make it more difficult for them.

Sincerely,
Laura Scott
