Rick Lewis

State Representative

House District 18

Dear Representative Lewis,

Thank you for your assistance in the much-needed and long-overdue safety improvement of lengthening the Aurora Airport runway. We have approx. 280 employees and use Aurora very regularly for access to our Wilsonville Office. Our current Aircraft has limits operating off Aurora; specifically, Aurora's length limits the Aircraft we can consider for a future upgrade, and of course more runway will improve the safety of all operations!

We see a significant economic benefit to the local area, a significant safety improvement, and no down-side to this improvement.

Sincerely,

Chip Goodman

President, American Medical Concepts
