I'm writing to voice my opposition to HB4920. As a long-time resident of Bend (30+ yrs) I've witnessed our community struggle with many growth related issues such as this one. The growth that Bend has experienced is something that many residents oppose, but is natural and inevitable. I don't feel that permitting a foot bridge in an area adjacent to a new development with 78 houses constitutes an unacceptable impact on the river corridor. Trails and bridges are a regular fixture in wilderness areas so I don't understand why an area adjacent to Bend's urban growth boundary should receive a greater level of protection than National Forest wilderness'.

Sincerely,

Doug Elliot
