Chair Senator Michael Dembrow
House Committee on Energy and Environment
Chair Representative Ken Helm

Re: Testimony for HB4001 and SB1507 – Clean Energy Jobs Bill
Public Hearing scheduled 2/7/2018

For the entire committee on Environment and Natural Resources, Chair Representative Helm,
Chair Senator Dembrow,

Thank you for working for several years to put together these Bills, HB 4001 and SB 1507.

I am a resident of Lane County, and, along with the many people in many groups that are supporting these Bills, wish to encourage you toward passage of this legislation.

This is a situation much like our problems with our foster care. Our earth is in immediate need of our help. Just as these children are of huge concern to our community, our earth/environment has been badly damaged and we know that the facts support just how much. The facts also point they way, via these Bills to provide ways to combat the use of fossil fuels. The Bills also provide many excellent ways to sequester Carbon.

We will see all the usual input from fossil fuel extractors, and Large agricultural concerns to negate these Bill"s intent.

It is my hope that your courage will win the day, and your ability to be creative in solutions will indeed begin the long process needed to set these bills in motion.

Thank you, Sue Craig Eugene/Springfield Interfaith Earthkeepers
