

Hello,

I am a 22-year-old Salem resident and I oppose this bill. I know that often people just view others as having instrumental value but all people, our senior citizens included have intrinsic value and their lives should be guarded as precious. Therefore I oppose any legislation defiant of this basic principle and HB 4135 is no exception; it endangers the life of elderly with Alzheimers, removes personal choice at the end of life, and leaves basic care unsecured.

Please vote no, this bill needs more work,

Sam Bassett
