Pope John Paul II in 1993 said "The ultimate test of your greatness is the way you treat every human being, but especially the weakest and most defenseless ones."

I agree with his statement and oppose HB 4135. We need to protect those with dementia and Alzheimer's disease.

Don't rush the process of updating advance directives without making sure that there is legal protection for these vulnerable people.

Thank you for your consideration of my concerns.
