

I oppose the Oregon Bill H.B. 4145 by Governor Kate Brown. This Draconian bill is an affront against an individual's right to seek redress from an "extreme risk protection order." Family or household member may cover more than even a possible acquaintance of a single person in their personal life, WAY too broad. There is no way to seek redress.

The problem is that under Federal law, if you contest this order, and it is upheld, **you will lose your gun rights under Federal law. Law is not constitutional...**
