

This bill is not written well and is against our second amendment rights. Please vote against this bill as the very liberal left that our governor represents is just working a little at a time to take our weapons. Governor Brown doesn't grasp even a thread of what the second amendment is about. The amendment is to enable the citizens protection against a corrupt and wrong government such as our governor represents. Governor Brown needs several laws written to control her ability to demand action now as she did at the Malheur standoff. She is the reason a citizen of our country was murdered. She should face a charge of accessory to a murder brought against her for her inability to access a situation and solve it peacefully instead of demanding action without arbitration. Kate Brown has blood on her hands and should be impeached.
