

As a community physician, I work throughout Marion County caring for patients in their homes and in various facilities. Due to the complexity of these patients medical and psychiatric issues, I often need the assistance of a psychiatrist. But as most of these patients have Medicare and are unable to leave their place of residence, I have had little to no support in addressing their psychiatric needs. This proposal would prove invaluable to me in carrying for these complicated patients.

Please consider this in supporting SB 1539.
