

Please oppose this bill. It violates due process protections, which stop at restraining orders, and goes unacceptably and illogically far beyond them by allowing gun seizure without any reason beyond whatever testimony led to the restraining order.

This is a mob-rule type of law, not defensible in a civilized country. If a "family" gets together to defame you, and gets a restraining order, you lose your firearms. It's witch-hunt type of law.

Ralph Nauman
