#### **BACKGROUND:**

More than 95 percent of employers in Oregon employ fewer than 50 workers, comprising nearly 40 percent of the workforce in Oregon. Currently, the Oregon Business Development Department, typically referred to as Business Oregon, offers the Oregon Business Development Fund (OBDF) loan, which gives preference to projects located in rural and distressed areas and to small businesses with fewer than 100 employees. The maximum size of an OBDF loan is \$1,000,000. Businesses with 50 or fewer employees may apply for the OBDF loan, but the loan is not specific to businesses of this size and does not set aside a specific amount of funds to be made available to applicants of this size with low to moderate household income and low to moderate personal net worth who operate businesses with a majority share owned by minorities, women, or honorably discharged veterans, or that are located outside the Portland metropolitan area.

Senate Bill 1516 establishes the Small Business Expansion Loan Fund through Business Oregon for the purpose of making early stage growth capital loans to individuals or businesses with 50 or fewer employees. The measure requires that the loan be to a business that is primarily in the traded sector, has a reasonable prospect of repayment, has a reasonable potential of high growth or increased employment, and can demonstrate a readiness for market. Senate Bill 1516 also establishes the terms of repayment and stipulates that loan must be secured by sufficient collateral and security.
