To Committee Staff,

I am writing this email to oppose Bill 4029 from passing. I have been a long time resident (over 15 years) of the RiverRim Community, and serving as Chairperson of our Commom Areas for almost as long. I was part of the public committee for the Bend Parks & Recreation meetings and saw an opportunity for all to connect our trail system in a pro-active way. RiverRim was part of that connection as we already have a trail system through our Meadow and community. We now have a new community being developed behind us (RiverVale) which will allow us to access the planned trail to the Bridge. Joint efforts have been discussed by both Parks & Rec and RiverVale for us RiverRim, to benefit with this connection. Our community has a Public Overlay on our trails which is already being used and enjoyed by our homeowners and others. To have the opportunity to extend this enjoyment is a very positive move. Thank you for your consideration in this matter.

Sincerely,

Suzanne Anderson
