Chair Hass and members of the Senate Finance and Revenue Committee,

The legislature should disconnect from the Internal Revenue Code as it pertains to the pass-through business tax break. I urge you to not allow the new business owners' tax break that the GOP passed to apply to Oregon businesses. This would retain an estimated \$400 million per biennium. This is a flawed policy and should be eliminated this year. We should be retaining all that \$400 million per biennium to benefit the 99% of Oregonians who don't qualify for this tax giveaway. We need to repair our aging infrastructure, expand renewable energy options, reduce tuition in our community colleges and state universities, and give tax breaks to folks who make less than \$100,000 a year.

Respectfully,
Christine Homitsu White
