

Testimony by Manuel J. Martinez on Feb. 7, 2018 – HB 4145)

It is well known that Marxism has tried to gain world domination, but so far had failed. There is not a single nation who has willingly accepted it, other than by force. This probe the movement which claimed to represent the “people” and liberation of the proletariat has been unable to gain the people trust. Due to the above failure, Marxism appears not to be palatable and new names have been adopted, such as Socialists, Liberals even “Democratic Socialists”, as describe by Frederick Engels in his work “Principles of Communism” in 1847. However, regardless of the new image, the goals have not been change from the past. They only change has been given the impression of pacifists, to manipulate people.

They deny association with agitators’ members of fanatical cultures and radical political ideologies, but use them as needed. A great example is Isis, which has been a Communism’s bless. Here in America, they have utilized criminal acts perpetrated by lone criminals or enemies of our Nation, to agitate the created fear and confusion, demanding more stringent regulations to the Bill of Rights, 2nd Amendment of our Constitution. This new image of the Marxism keeps given the reason for regulation as, safety. This is nothing more than a **farce**. We already have a string of requirements on the books in this State and in the rest of our country to prevent illegal utilization and possession of firearms of any kind, to accomplish such purpose. Any more, would jeopardize our rights and threaten the Constitution of this pristine Land. If the Law enforcement agencies of the Nation, the Government, including its political participants, to perform adequately their job would be no necessity to disturbed the constitutionality right to bear arms. The 2nd Amendment of the Bill of Rights is the guardian of our Freedom and Liberty. It is the obstacle for traitors of our country to succeed.

House Bill 4145 would only help and protect the criminals and all those with an obsessive appetitive for POWER. It is well documented that tyrants and tyrannies at the present and in the past has an enormous love to disarm the population. As a man knowing and watched the destruction of its native country is an impossibility to stay silent without a response to this mal-intended House Bill 4145. **This is a Marxist Law** and there is no room for it in United State of America. “...the Land of the Free and Home of the Brave...”

I wonder how many of you know what FREEDOM is.

Freedom is a precious jewel, once lost would take an enormous amount of martyrdom to seek its return.

“Before a standing army can rule, the people must be disarmed; as they are in almost every kingdom of Europe. The supreme power in America cannot enforce unjust laws by the sword; because the whole body of the people are armed, and constitute a force superior to any band of regular troops that can be, on any pretence, raised in the United States.”

Noah Webster, an examination of the Leading Principles of the Federal Constitution, 1787
