

As a retired Federal Officer and retired Military member this is just another attempt to chop away at 2nd amendment rights that states do not have the right to take. With current State and Federal laws and regulation see no need for this. If I don't have a VA appointment that I have been waiting on for months, I would tell y'all in person. This is time better spent on fixing the homeless, and traffic problems in Oregon.

Sincerely, Jose Guadalupe Lara (DOJ Lieutenant - SFC Army retired)
