

Please vote no n HB 4135

As an 83 year old, life becomes perhaps more difficult with each passing year, but no one, including me, should have the Right to take my life that was created in my mothers womb by the Loving God who Created and Sustains the Universes. He knows and plans our future in His amazing Love and no person or doctor or government should claim the Right to gainsay what His Perfect Plan for each life may be. Please vote No on HB4135
