

This bill does not protect anyone. It is and continues to be an effort to take freedoms away from law abiding individuals without due process. It is an attempt to reduce crimes of passion which it will not. Crimes of passion will occur with knives, baseball bats, cars or many other means. This is a poorly worded and ineffective effort by the authors of the bill to show their constituents that they are doing something about gun violence at the expense of many loosing their rights. Removing the gun does not stop the violence. It is the violence that needs to be attacked. How about promoting the traditional family. That is the most effective way to stop violence.
