Follow Up Flag: Follow up
Flag Status: Flagged

Committee Members:

My name is Alexander Stout. My wife, our 3 young sons and I live on several acres south of Hillsboro. I have lived at our current location for most of my life, currently living next to my father who runs a small hay production business on his property that he has owned for more than 30 years.

We are aware of the proposed HB 4075 relating to Rural Reserves in Washington County, and we urge you to prevent this bill from advancing out of Committee. HB 4075 is an effort by individuals with a vested interest in undoing the Urban Reserves for their own financial gain. This is contrary to Oregon's longstanding commitment to land use processes that balance economic and environmental interests, provide an open participation opportunity, and protect our irreplaceable natural resources.

Please, do not allow this bill to advance.

Thank you,
Alexander and April Stout
