

I oppose bill HB 4145 this bill as you will harm good people by giving dis-honest people the power to take rights from others. No one should have this type of power. I have seen firsthand how an ex would lie about anything to harm the other person during the divorce and after. I believe it will just tie up more of the court systems resources with more cases that are not needed and not be able to focus on the ones that are important. Also you will never **Predict/STOP "EVIL", "HATE", "CRAZY"** you are dealing with **HUMANS**, if they want to harm someone they will, be it with a Lie, Gun, Knife, Car, Baseball Bat, Frying Pan, Rolling Pin, Shovel, Beer Bottle, etc. When are you going to wake-up and realize, no matter what bill/laws you pass, you will never succeed in taking the guns out of **"NON-LAW-ABIDING-CITIZENS"** it is only obvious they do not play on the same playing field and by passing all these laws you can make a person who is a Law-Abiding-Citizen a criminal. What you could do, is start understanding **"Inalienable Right"** and work on protecting them instead of trying to take them from the citizens. All you are doing is writing bills that will never work, that give you a faulty sense of safety, and give criminals more power to harm. One last thing when a government has to pass laws to try and deal with moral conduct, we have bigger problems than trying to control an inanimate objects and people. Thank you for your time.
