

To whom ,

HB 4145 is potentially a very dangerous legislation. I do not understand how anyone can actually believe that it is a

sensible thought, let alone become a law.

Anyone who you are or have been intimate with? can file against you!

Anyone from twenty, thirty, forty or fifty years ago?

Anyone from your Army days in some other country?

Anyone from your one night encounter?

Anyone else, heck could be some prostitute from where ever, when ever?

I know that you get the drift just how ridiculous this idea is!

No point at all.

PLEASE DO THE RIGHT THING AND VOTE NO!

Sincerely

Richard Codanti
