

Dear Sir,

As a resident of Bend, I would like to voice my opinion on the proposed bridge across the Deschutes River south of Bend. I am opposed to House Bill 4029 and in favor of building a pedestrian bridge. The citizens of our community voted to fund the project, which shows our support. There is so much traffic in Bend now, that having a pedestrian bridge that would allow us to access the Deschutes River Trail without driving into Bend and then up the mountain would save us time and energy as well as reducing traffic and pollution. Please support this pedestrian bridge by voting against HB 4029.

Thank you,

Linda Hurley
