

As home owners in Deschutes River Woods for the past 26 years, we are in opposition to this bill. The proposed bridge has been discussed and planned for more than 20 years and now that the River trail is in it's final stages, it's time to construct the bridge. This is a local issue and Bend Parks and Recreation has taken steps to ensure the input of citizens regarding this proposed bridge. My husband and I look forward to having the bridge which will allow us to access the trail by our home and not need to drive to access it. Please do not approve this bill.
