

I do not understand what is so difficult about understanding that NO LAW will prevent a criminal from doing something "against the law."

The 2nd amendment to the Constitution

Clearly states:

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

This means by you Gov. Brown! And anyone else who attempts. Our Constitution is to protect the people from tyrannical leaders.

If we are going to start blaming inatament object for the actions of a few, then we will have to outlaw motor vehicles, aircraft and trains because "something could happen"

The choice of the tool a criminal uses to commit a crime, does not mean, indicate that someone in their charge of their faculties would use the tool in the same hanas manner. Guns are NOT the problem regardless of how you want to frame it. This Bill is another useless piece of legislation that means nothing and will accomplish the same. I urge a NO vote for HB 4145.
