Re: HB 4003

Dear Chair Greenlick and Members of the Committee:

If you take action to end the scourge of dirty diesel pollution, you will be heroes, exactly as if you had, on hundreds of separate occasions, seen someone tied to the railroad tracks with a train bearing down on them and rushed over to untie them.

If you do not take action, it will be as if, on hundreds of occasions, you had seen someone tied to the railroad tracks with a train bearing down on them, shrugged, and continued on your way to your next meeting.

Sincerely,

Steve Novick
