

RE: Letter Opposing HB 4092

Dear Chair McClain and Committee Members:

The focus of HB 4092 is the Aurora Airport. The measure has been referred to your House Committee on Transportation Policy scheduled for a public hearing on February 9th, and is clearly an underhanded attempt by airport users/developers to commercialize land near the airport fence specifically designated for Exclusive Farm Use.

There is a prescribed process for that, one that favors public involvement. And the public, in the form of local communities which will bear the brunt of increased noise pollution, deserves to be heard in this matter!

I respectfully request your attention and influence, to the extent possible, be used to defeat this measure. Thank you.
