Dear House Committee on Agriculture and National Resources
Representative Brian Clem, Chair
900 Court Street, NE
Salem, Oregon 97301

I am a Bend resident and I strongly oppose House Bill 4029. The proposed footbridge would be an asset to our community and is in line with our adventurous spirit and desire to enjoy public lands. I also believe that securing accesses to our National Forest lands is imperative as this region experiences rapid growth and the existing accesses become more and more crowded.

Please consider our entire community when casting your vote, not just those homeowners along the river that would prefer to keep "their" little piece of public land private. I urge you to vote no on HB 4029.

This is not what is intended for Public Lands!

Sincerely,
Jason Jacobi
