Chair, Vice Chairs and Members of the Agriculture and Natural Resources Committee:

As a rural resident in Deschutes County on farmland, I STRONGLY OPPOSE HB 4089 for it's sweeping transformation of hemp into cannabis.

Removing the 0.3% THC maximum of hemp without funding adequate resources for ODA, OLCC, and our local state police and not giving local communities the ability to implement Time Place and Manner (TPM) Rules as was done for marijuana is IRRESPONSIBLE.

As of today, Oregon has a surplus of cannabis and HB 4089 will further exacerbate and stress state agencies who are challenged today in regulating marijuana.

This short session is not the time to rush these most important discussions about cannabis in Oregon.

I ask that you table HB 4089 until such time as all citizens of Oregon can partake in the cannabis discussion. We the people in Deschutes County did not get to vote on marijuana and I ask that you atleast hear our concerns.

Thank you for considering my views
