Subject: HB 4035

To whom it may concern,

As the spouse of a long serving National Guardsman I would like to share my support of HB 4035. My husband joined to help have school some school costs covered but it has been one struggle after the next to get that schooling covered. Any extra help in achieving the education goals of NG members is greatly appreciated by not only the members but their families as well.

Thank you,

Jeanné Niphanprasart
