

February 8, 2018

Dear Rep. Greenlick,

I am writing to you in support of HB 4104 concerning access to sound for children who are deaf/hard of hearing. Current insurance requirements leave children without adequate services and devices to help them succeed in school and life. HB 4104 will provide children with timely access to pediatric audiologists and assistive listening devices to aid with hearing. I work with deaf and hard of hearing students on their speech and listening skills. It is essential for them to always have working amplification in order to develop their skills. As a member of the House Health Care Committee, please support HB 4104.

Thank you!

Renee Taylor, Speech/Language Pathologist
