

I would like to speak on Monday regarding HB4099
Here is what I have to say.

My name is Greg Waters. I am an avid boater on the Upper Willamette River. I live very close to the Boonesferry Marina and I rent a slip at the Marina. When purchasing our home, we waited a long time for something in that area to become available because of how much time we spend on the river, and it's the environment I want my daughter to grow up in. This Bill would heavily effect my families activities.

This would effect all my neighbors across the street, that live on the water, they don't just sit and look at the river they are on their docks and on their boats every chance they can, during our very very short season.

This bill would also have a major impact on how I provide income for my family.

I sell the boats that this bill is trying to shut down, just the talk of this bill has already impacted my sales. Not only does it effect my families income but it would also impact my 20 Co Workers and their families income, along with all the businesses and manufactures that we do business with.

I am a very STRONG NO on HB4099 & HB4138.”
-Greg Waters
