

February 10, 2018

To: Members of the House Transportation Policy Committee.

Subject: Please SUPPORT HB 4092 from Charles D. Trover, President of The Charles D. Trover Family Foundation

Dear Chair McLain and members of the House Transportation Policy Committee,

My name is Charles D. Trover, President of The Charles D. Trover Family Foundation. I'm writing to ask for your support of HB 4092.

Our Foundation works in 5 countries including several states in the U.S. We are continually expanding our presence from our base in Sherwood, Oregon to the extent that we are going to acquire a plane and have plans to base it at the Aurora Airport contingent on this improvement plan passing and being implemented.

The existing runway needs to be upgraded **to be safe** and attract more businesses such as ours. I have read through the opponents arguments and find them to be factually inaccurate. In a short summary this bill will not take farm land out of production and has been in the KUAO master plan since 1976 and reaffirmed again in 2013 with years of public input to the process.

Please support this bill.

Sincerely,

Charles D. Trover
