

Hi there,

I am writing to ask you to support HB 4002. Cleaner Air Oregon is designed to protect public health. We need to fully fund Oregon DEQ to insure that our laws are being followed and that Oregonians health and quality-of-life is being protected. Oregon is a growing state, but without the proper regulatory format and funding mechanism for DEQ to do their job, we open ourselves to being the dumping ground of the West Coast and larger areas. An example of this is the dangerous diesel fleets which pollute our states and cause a host of environmental health problems in children, elderly and all Oregonians, as well as the wildlife. DEQ must be allowed to regulate known and future polluters.

Please pass HB4002.
