**Date:** Sunday, February 11, 2018 7:35:16 PM

---

Members of the Committee:

Please pass and fund SB 1508.

Vote NO on SB151, and industry-written that strips DEQ of its authority to regulate airshed toxics.

Last Friday, February 9th, the air quality in Portland was so poor that I decided to take the day off and stay indoors. This is not "stale air;" it is contaminated air, reeking of a creosote smell.

## **Make Poverty History: Universal Basic Income**

Saving the planet is up to all of us,  
but we cannot expect people  
still stuck in a poverty trap  
to think of it as a priority.  
Creating a fairer society and  
saving the planet go hand-in-hand.
