Subject: Support SB 1508 and Oppose SB 1541

Hello,

I am writing to urge the legislature to support SB 1508 (HB 4002) which will provide the critical funding necessary to ensure the implementation of a strong statewide cleaner air program.

I am also writing to urge the legislature to oppose SB 1541 which further weakens DEQ by stripping them of the authority and rules to implement important and critical health based standards and guidelines.

Clean air is a most critical health issue for our state, particularly our children.

Thanks for your consideration.
