RE: HB 4002

Dear Chair Helm and Members of the Committee,

We write in support of HB 4002 to improve air quality for Oregonians by authorizing increased funding to implement the Cleaner Air Oregon program.

Emissions of air toxics threaten public health in Portland and communities throughout Oregon. Protection of public health demands a focus on risk- and science-based approaches to air toxics permitting and reduction of local concentrations of air toxics. The Cleaner Air Oregon program will provide that approach. The City of Portland participated in the Cleaner Air Oregon rulemaking advisory process and strongly supports the increased fee authority in HB 4002 to fund the Department of Environmental Quality (DEQ) to develop and implement the Cleaner Air Oregon program.

The City of Portland respectfully urges your support for HB 4002. Thank you for your consideration.
