

Chairman McLain and members of the House Transportation Policy Committee

I attended the hearing on HB 4092 and heard all the arguments for and against this bill. I am not opposed to the airport but I am opposed to handling land use issues without going through the regular and usual process. I have been involved with a land use issue before and we had to go through the process stated by Oregon Land Use Law. What is the rush in passing this bill now?

By passing this bill now you will be setting a precedent for future land use issues to be done through the legislature instead of through the normal land use processes. Why is the Aurora Airport getting special consideration to circumvent the Oregon Land Use Law? You are also circumventing citizen involvement. As a citizen and voter I am asking that you vote NO on HB 4092 and send this land use matter through the Oregon Land Use process.

Thank you for considering my concerns.
